Employee Retention · Performance Tracking · Salary Analysis

BUSINESS OVERVIEW

About NextGen Corp.

NextGen Corp. is a growing technology company focused on developing innovative solutions in the software and hardware spaces.

The company prides itself on attracting top talent and maintaining high employee satisfaction to drive sustainable growth.

Employee Turnover

Rising turnover rates threaten talent continuity and increase recruitment costs.

Performance Gaps

Inconsistent performance across departments signals need for targeted improvement.

Salary Disparities

Unequal compensation structures risk employee dissatisfaction and attrition.

SECTION A

Employee Retention Analysis

Goal: Understand employee turnover trends and identify root causes of high turnover rates.

Employee Retention · Q1 & Q2

Q1 · Top 5 Highest Serving Employees

Employee	Hire Date	Rank
David Moore	Jun 30, 2015	#1
Frank Smith	Sep 08, 2015	#2
Jane Brown	Oct 12, 2015	#3
John Johnson	Oct 27, 2015	#4
John Doe	Feb 16, 2016	#5

💡 Insight: All top 5 employees have served since 2015–2016. David Moore is the longest-serving employee. Retaining this institutional knowledge is critical.

Q2 · Turnover Rate by Department (%)

💡 Insight: Marketing has a critical 92.86% turnover rate — nearly all staff left! Engineering follows at 66.67%. HR and Sales are more stable at ~27%.

Employee Retention · Q3 & Q4

Q3 · Employees At Risk (Avg Score < 3.5)

1

Employee
At Risk

Grace Wilson

Avg Score: 3.43

Engineering Dept.

Status: *Already left*

Good News: No current employees score below 3.5. The only low-performer (Grace Wilson) has already left the company. All active staff are performing adequately.

Recommendation: Implement quarterly check-ins for scores between 3.5–4.0 to prevent future risks.

Q4 · Main Reasons Employees Left

■ Career Growth ■ Found Another Job ■ Personal ■ Retired

Insight: 'Personal' reasons account for 39% of departures. 'Found Another Job' (25%) and 'Career Growth' (18%) suggest employees feel limited growth opportunities at NextGen.

SECTION B

Performance Analysis

Goal: Evaluate employee performance across departments and identify areas for improvement.

Performance Analysis · Q1, Q2 & Q3

28

Employees Left
the Company

9

Employees with
Score = 5.0

45

Employees with
Score < 3.5

4

Departments
Tracked

Q3 · Departments by Score 5.0 / Below 3.5

Department	Score = 5.0	Score < 3.5
Marketing	5 ★	0
Engineering	2	16 ★
Sales	1	?
HR	0	?

Q4 · Average Performance Score by Department

Marketing leads with 5 top scorers (5.0). Engineering has the most low scorers (16 below 3.5) — a priority area for improvement.

SECTION C

Salary Analysis

Goal: Analyze salary distribution and ensure fair compensation based on performance.

Salary Analysis · Q1, Q2, Q3 & Q4

\$4.85M

Total Salary
Expense (Q1)

26

Above \$80K
(Q3)

Q2 · Average Salary by Job Title (\$)

Q4 · Salary vs Performance by Department

Sales earns the highest avg salary (\$82,069) while Marketing leads performance (4.17). Higher pay doesn't always mean top performance.

Key Findings & Next Steps for HR

SECTION

A

Retention

Finding: Marketing has a critical 92.86% turnover rate and Engineering 66.67%. 39% of leavers cited Personal reasons, while 25% Found Another Job.

Recommendation

Introduce career development programs and retention bonuses, especially for Marketing and Engineering departments.

SECTION

B

Performance

Finding: All departments average above 3.7. Engineering leads with top scorers. Only 1 employee scored below 3.5 — and she has already left.

Recommendation

Continue quarterly performance tracking. Reward top performers (score 5.0) with recognition programs.

SECTION

C

Salary

Finding: Total payroll is \$4.85M. 26 employees earn above \$80K. Sales earns the highest avg salary (\$82,069) but Marketing leads in performance (4.17).

Recommendation

Conduct salary benchmarking for Marketing. Tie salary increments directly to performance scores to better align pay with output.
